

Meet Green

Where Every Meeting Leaves a Greener Mark

LA SUITE DUBAI

HOTEL & APARTMENTS

Host exceptional gatherings with a lighter footprint

Book our new “Meet Green” Full Day Delegate Package offered at La Suite Dubai, including:

- A meeting experience free from single-use plastic
- A vegan, vegetarian or sustainably sourced menu
- Fairtrade® certified tea, coffee, and sugar
- Filtered water from our on-site water bottling plant
- A Meeting Impact Statement, detailing your event’s energy and water consumption, waste recycling rate, and sustainability highlights

Our team is ready to tailor your event using our Meet Green checklist.

When you choose to host your Green event with us, you can be confident that La Suite integrates sustainability practices throughout all aspects of its operations, in line with the Green Growth strategy.

Meeting packages

At La Suite Dubai Hotel & Apartments, we have designed our 'Meet Green' package that promotes sustainability without compromising on comfort.

From careful planning and seamless execution to your guests' departure, we incorporate prevention, reduction, and mitigation measures to ensure your event leaves a lighter ecological footprint.

This package is offered at AED 2000 per day, saving you money as you save the planet.

Meeting space

- Our meeting spaces feature an automatic thermostat system, allowing you to enjoy instant temperature control while supporting energy efficiency.
- We use energy-efficient LED fixtures with dimmer switches in our lighting system. This setup allows for adjustable lighting levels and helps to minimise unnecessary energy consumption.
- All bathrooms are fitted with low-flow water devices to maintain responsible water use.
- Our housekeeping teams prioritise eco-certified products to mitigate the environmental impact.

Event catering & dining

We request confirmation of attendees 7 days in advance of your event to prevent food waste.

Our culinary team further minimises waste by discussing portion sizes and presentation with the client prior to the event. Portion sizing and presentation discussed with client and culinary teams to further minimise waste.

A choice of vegan, vegetarian or sustainably sourced menus, including Fairtrade® tea, coffee, and sugar is provided for your delegates.

Our sustainably sourced menus consist of produce that is either locally grown, certified organic with the use of zero pesticides, or certified sustainable to meet specific sustainability criteria. Excess food will be donated through our long-standing partners.

Conscious waste

- La Suite Dubai is committed to eliminating single use plastic water bottles across the hotel.
- All our meetings are free of single-use plastic.
- We encourage to use our in-house bottled filtered water. This is filtered and bottled at our in-house water bottling plant to eliminate plastic and minimise our carbon footprint.
- Any cigarette butts will be recycled through our dedicated partner into valuable building materials.
- We provide a stationery station with pencils, notepads and a paper recycling bin to encourage guests to be more conscious of their use.
- A reduced single-use meeting setup that limits disposable items like straws, paper cups and cutlery.
- Reusable alternatives such as white boards to replace flip charts will be provided.

Transport

Complimentary shuttle buses are provided to Dubai Media City, Knowledge Village & Insurance Market Metro Station.

In cooler months, delegates can walk to Dubai Internet City Metro Station in under 10 minutes.
