### **The Kalutara Bodhiya**

Located at the southern end of the 38m Kalutara Bridge, the three-storey Kalutara Bodhiya Temple was built in the 1960s, and holds the distinction of being the only stupa in the world that is hollow, and has inside access.

### **Richmond Castle**

Built at the turn of the century in Kalutara, Richmond Castle is considered to be one of the most spectacular architectural works of the period. Formerly the property of a wealthy landowner turned philanthropist, the mansion stands majestically atop a hill, on a 42-acre estate. Once a circuit bungalow for high-ranking officers of the British administrative service, today it is a popular tourist attraction, and serves as an educational centre for under privileged children in Kalutara.

### **Thudugala Ella Waterfall**

Situated on a former plantation owned during the British occupation, this waterfall is a natural stream pool surrounded by a forest reserve. Though shorter than other waterfalls in Sri Lanka, the nearby forest reserve is home to beautiful migratory birds such as the “Pale Bellied Flower Pecker” - the smallest bird in Sri Lanka.
