Social responsibility and commitment

Avani Hotels & Resorts cares about environmental, social and cultural conservation, and supports a number of local causes in a variety of ways. Our local programmes are continually monitored for process and progress—and we always invite and encourage our guests, suppliers and the local community to participate in our efforts.

Dollars for Deeds

If you'd like to make a positive contribution, you can do so through the Dollars for Deeds initiative. Funds raised are passed on to three worthwhile Thai foundations: the Golden Triangle Asian Elephant Foundation (GTAEF) in Chiang Rai, the Mai Khao Marine Turtle Foundation in Phuket, and the Princess Sirindhorn Craniofacial Centre at Chulalongkorn Hospital in Bangkok. Ask one of our team members how you can give back.

Composting and Waste Management

Landfill waste is a big problem worldwide, so we do our part to help mitigate it by reducing, reusing and recycling solid waste. We work with a local waste management company to help minimise our contribution to landfills, and run a composting programme that turns organic waste into fertile soil. When we buy new things, we focus on products that are durable, repairable and recyclable.

Energy Conservation

All Avani hotels and resorts aim to minimise our energy usage with energy-efficient lighting and energy-saving investments. You can help us reduce our carbon footprint by turning off any lights you're not using, unplugging your electronic devices when they're not charging, and taking a mindful approach to using the A/C.

Health and Safety

We always put the health and safety of our guests and team members first. To make sure we meet relevant regulations and international best practices, our staff receive regular training, and we're continuously monitoring potential hazards in and around the resort to provide an environment that's safe for all to enjoy.

Quality

We've set a high bar for ourselves when it comes to delivering quality products and services. We're always eager to keep improving to give our guests the best possible stay. This includes measuring guest satisfaction, developing and training our teams, encouraging excellence, and keeping the resort in tip-top condition.

Social Culture

In every Avani location we work closely with local communities. As part of our social involvement programme we provide job opportunities within the resort to local artisans and performers. Wherever we can, we infuse local culture into guest experiences, for an enlightening and enriching stay. We always strive to employ and empower members of the local community, and source products and services locally whenever we can.
